Championship Challenge Trophy Returns to Region 3 for Fourth Year in a Row

"If Summer couldn't win it again, I'm glad that Ruby and Jenny brought it back to Region 3," said Ken Wolgram, who rode Summer to back-to-back Challenge wins in 2000 and 2001 and finished 2nd in the Heavyweight Horse division this year. Judy Mason had ridden Brown-R Dawud (Woody) to a Challenge victory in 1999, so, for a 4th year in a row, a Region 3 horse was crowned Grand Champion Horse at the end of the two-day, 80-mile Championship Challenge ride hosted by Region 6 this year at Whispering Pines Resort near Salem, Missouri. (See photos of all our Region 3 riders inside.)

The facility, located in a beautiful pine grove, featured electrical hookups for the campers and covered stalls and running water for the horses. The autumn colors were spectacular and the weather cooperated with no rain during the ride itself (although it really poured before the ride and right after awards). Someone Up There was smiling on the 32 riders who attended the Challenge from Regions 3, 4, 5, and 6.

The vet judges, Jerry Weil and Kim McKenzie, and horsemanship judges, Gerald Ferguson and Nancy Kasovich, kept the riders busy with numerous challenging and fun obstacles. Championship Challenge 2002 was one that will be remembered a long time by those privileged to attend. Region 6 management team Martha Kunkle and Kim Downing, Co-Chairs, and Ruth Messimer, Ride Secretary, did a terrific job of taking care of the riders all weekend.

Region 6 will also be hosting the National Convention this year to be held February 13-16 in Kansas City. I hope that Region 3 can be well-represented at National Convention. It sounds as if it is going to be lots of fun as well as educational.

This is also the time of year when we can look back on what we accomplished with our horses during the past year and envision our goals for next year. I really believe in goals; I set goals every week, every month, every year. Maybe you might think I'm compulsive (I even keep track of my goals and how I'm progressing by writing them down), but I feel that if we don't set goals, we won't ever extend our potential to achieve. Setting a goal is half the battle of getting there.

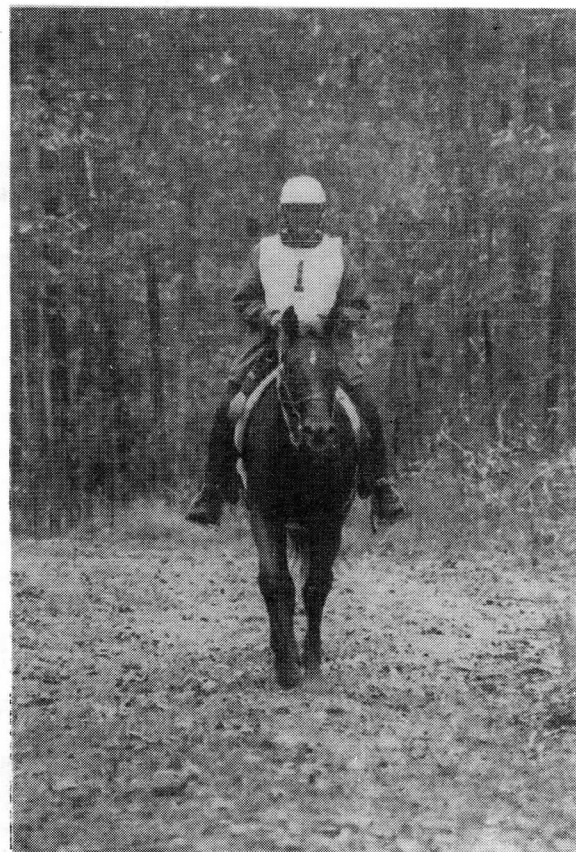

One goal I would like to encourage everyone to set this year would be to serve as a volunteer worker for at least one ride during the season. It's easy. Don't wait to be asked. Just pick up the phone and call a ride chair and ask him or her what job you can fill. Your effort WILL be appreciated.

Also, whether you are riding or working a ride, ask a friend to come along with you. It's a great way to introduce someone to our wonderful sport.

Last but not least, please mark your calendars to attend the Region 3 year-end seminar to be held Saturday, January 18, in Denver, Colorado (see insert inside for information and registration form). It's really easy this time of year to get so busy with the holidays that we overlook the January "happenings." And this is one you won't want to miss.

I hope that all of you and your families and loved ones have a happy and safe holiday season.

PRESIDENT'S MESSAGE

For this president's message, I would like to start by congratulating everyone who participated in NATRC this year. Even though we lost a couple of rides this year, we still had a very good turnout at the rides we did have, and it seemed that everyone was having a good time. In this column I would like to say thank you to all those who made the year one to remember.

The end of the year is a good time to reflect on what happened over the past year. We had some adversity this year (early and persistent fire season in Region 3), but from talking to and working with ride management and volunteers, it is clear to me that our members and volunteers stepped up to the challenges this year. Thanks to their efforts we only lost two rides to the fire season. It could have been much worse had not ride management worked tirelessly to get permission to put rides on. To them, I think the entire region owes a GREAT BIG THANK YOU. Their efforts more than anyone else's made this a successful ride year, which I, for one, will remember for a long time.

The end of the year is also the time that we elect new board members. I would like to say thank you to the Region 3 board. It has been a pleasure working with a group whose goal is to make NATRC and Region 3 the best region to ride in. The board has met several times during the year to deal with issues. The board members have given much time and effort to support the region. While not a thankless job, it often seems that we hear more from members about things that are going wrong than about things that are going right. I would like to say THANK YOU to the current board for their support and efforts this past year. To the new board members, I would like to say welcome and thank you for volunteering to serve on the board, and I look forward to working with you during the next year.

I would also like to recognize the time and effort spent by some others in our region. Our national board members attend the national meetings and all the Region 3 meetings. Just attending meetings takes a lot of time on their part, not counting the positions and

issues they have to deal with on a national level. I have been privileged to see this past couple of years what kind of commitment that it takes, and I have a great deal of respect for those who volunteer for these positions. The issues and items we have to deal with at the regional level pale in comparison to national. I think that we as a region should say THANK YOU not only to Region 3's national board members but also to all the national board members.

I would also like to recognize our newsletter editor, Betty Wolgram. In serving on the board I have come to appreciate the amount of work, time, and dedication that it takes to put out the regional newsletters. Without her efforts you would not be reading this. This position is a voluntary one, with no remuneration. I can only imagine the amount of time that is invested in this position. I would like to say a special THANK YOU to our newsletter editor.

The end of the year is also the time to look forward, towards the next year. The start of the next year, for me, is the Region 3 convention. We all get together to reflect on the past years and to look forward to the next year and what we hope to accomplish during the year. The outgoing and incoming board members meet for the first time to set agendas and schedules for the next year. We have the general membership meeting and the awards dinner.

The convention is what kicks off the year. It's where we all start looking forward to the next ride season. I, for one, am looking forward to the convention and to seeing all the region members that I enjoy riding with and having a good time with.

I hope to see everyone at the Region 3 convention in Denver.

Marc Shanor

P.S. If anyone has questions or concerns that they would like brought up, please e-mail me at mshanor@worldnet.att.net.

REGION 3 MEMBER PROFILE

KAY GUNCKEL, DVM

I started riding when I was ten years old. I inherited a thirteen-year-old Palomino Appaloosa gelding that my grandfather had raised. Peter Dunn was "broke" as a two-year-old and then thrown out to pasture until he was ten years old and then gelded.

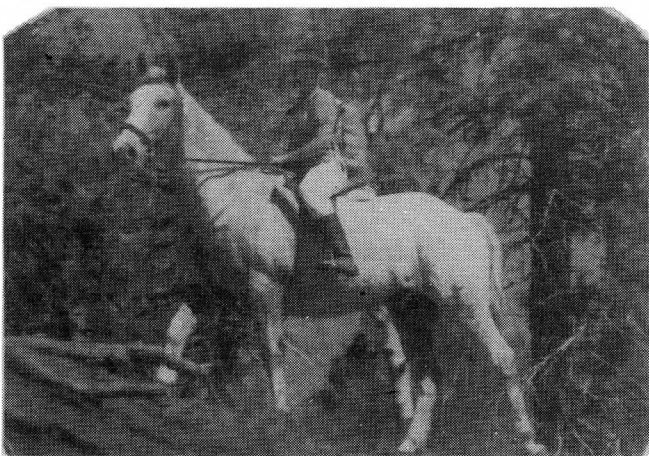

There was a horse-training center a couple of houses down the road. I took riding lessons every weekend. Peter was pastured ten miles away in a 35-acre pasture. My parents and I would chase the horse for an hour before he would allow us to catch him. I would go to my lesson and come home with a big smile on my face. My mom would ask, "How was your lesson?" I would answer, "Great, I only fell off once today."

I was very active in the 4-H horse project and in a few short years had developed a team between my horse and me. We did Western and English but loved jumping best.

My family didn't have much money so we hauled the horse in the back of the pickup truck with stock racks. He would just jump in flat, but it was always a challenge to find a place to back up to get him unloaded. Peter rode in the truck with protective eye goggles on. I had a person tell me, "You know how to tell if your horse likes to ride in the back of the truck? Check his teeth for bugs to see if he was smiling."

I started in NATRC when I was twelve years old. My riding instructor, Addie Miller (Dawsen), took me to the El Jinete Solitario Trail Ride when it was held at Valacito Reservoir. She had me scared to death when she said, "You will be riding up on that cliff and that cliff and that cliff." I slept in a one-man tent in the wind and didn't get a wink of sleep. It was a beautiful ride and my horse took good care of me. I was the only Novice Junior on the ride, so I won a buckle for first place horse and first place horsemanship. I as hooked.

I did the Navajo Lake Ride the next year. There was a full class of juniors and I won horsemanship, 4-H award, and the Appaloosa award. Every year I did the El Jinete, Chokecherry, and Navajo Lake rides. One year I did a six-ride season. My parents hauled me all over the state. I met a lot of neat people and learned a lot from Pat Jubb, Neil McKinsty, Dean Schrader, and Terri Roberts.

Kay Gunckel (age ten) and Peter Dunn make a happy team. (Photo donated by Kay Gunckel)

I knew from a young age that I wanted to become a veterinarian. I graduated from Durango High School, went to Fort Lewis College, and then entered CSU Veterinary School. While attending Fort Lewis College, I helped Pat Montgomery (McCoy) as ride secretary with the El Jinete Solitario Trail Ride, now held at Purgatory.

I attended veterinary school on a NATRC scholarship. Thanks to all those number deposits that were donated back to the scholarship fund. Thanks!

After vet school, starting a family, and opening my own veterinary clinic, I am back on the trail! The sport is basically the same after seventeen years. Some of the things that have changed are lunging the horse at presentation and wearing boots while riding and working around the horse. Helmets weren't required for juniors nor was allowing your horse to eat or drink along the trail with a bit in its mouth. The sport is still as wonderful as I remember with the beautiful trails and wonderful people to ride with.

I am now in the process of getting my veterinary judging card. I have learned a lot as a rider with the help of some wonderful mentors. I started my apprentice judging in Region 5 at a ride in Georgia. I want to see how different regions run their rides. I look forward to getting to judge a whole range of breeds of horses that compete in this sport. See you all on the trails!!!

Dear Editor:

This note is to inform all of Talon's friends in both NATRC and AERC that he had to be put to sleep on October 30, 2002, at the age of fourteen and that he is buried very close to the site of Lovell's new house on the farm. For the last eighteen months we have treated an injury to the tendon sheath on the right rear fetlock area. After numerous injections, casts, and two major surgeries which took place in August of 2002, all looked very good and then the infection return and there was nothing left to do. He could not walk except to put his toe on the ground and hop with the good leg.

Sometimes we have to know when to let them go. I know I will treasure the memories I have of competing with him on the trail, especially the time in 1997 at the end of the Rabbit Valley ride when Linda Fisher commented on what a pleasant, well-behaved horse Talon was and how it was a pleasure to share the trail with him.

Perhaps Sackett and I may hit the trail next year. For those of you who don't already know, Talon was Sackett's little brother.

Sincerely,

Lovell Sasser (Lovell of Mack to many of you)

Editor's Note:

Our sympathies are also extended to NATRC member Sylvia Beverly (California), whose great horse Harca had to be put down recently after it was discovered he had a tumor in his brain.

"WHY I RIDE"

by Elbert Hubbard (U.S. editor, publisher, and author)

I ride because I prize my sleep, my digestion, and my think-trap. I ride in order that I may work. I wish to be a good transformer of divine energy. I want to add to the wealth and happiness of the world, and to make two gins grow where there was only a grouch before. I find that when I go in partnership with a good horse I keep my nerves from getting outside my clothes. I am better able to act sanely, serenely, and happily, dispose of difficulties and surmount obstacles. A horse helps you 'to forget' it. A horse has no troubles of his own. He does not pour into your ear a sad tale of woe. One of the principal reasons why I have been able to do good work is because I have always kept on close, chummy terms with at least one good horse. My opinion is now that, if we are going to preserve our vigor, our enjoyment, we will have to be on good terms with Mother Earth. It is a great thing to feel that you are bigger than the elements. And a horse of the right kind helps you to hypnotize yourself into the belief that you are a part of all you see and hear and feel. No man can have melancholia who loves a horse and is understood by one. You shake off your troubles and send cares flying into the wanton winds when you ride horseback.

EDITOR'S NOTE: Thank you, Donna Johnson, for submitting the above selection by Elbert Hubbard.

ANOTHER wonderful quote by Elbert Hubbard: "Never explain—your friends do not need it and your enemies will not believe it anyhow."

WHAT DO YOU WANT?

Your devoted, hardworking newsletter editor would like to know what you would like to see and read about in upcoming issues of the newsletter.
